

11-1020-B

Swivel Rubber-ducky Antenna

- 902-928 MHz
- VSWR: 1.5:1
- 2.15 dBi Gain
- Adjustable Right Angle
- Swivel
- Reverse Polarity TNC Plug

Product Details

The 11-1020-B is a 902-928 MHz, right angle adjustable, swivel antenna. This product is featured in many ISM communications and is the perfect solution for most wireless network applications. The enclosure is designed to meet IP67 standards with protection against water and dust migration. The antenna is designed with a high quality TNC connector for maximum RF efficiency.

Part Number	11-1020-B
Frequency	902-928 MHz
Gain	2.15 dBi
VSWR	≤ 1.2
Impedance	50Ω
Height @ Joint	202 mm
Connector Type	R.P. TNC Plug
